The cost of Health Care Coverage is the largest expense facing each and every business today. To get a better understanding on the future of health care surrounding business and our community the Chamber's Health Care Committee has developed a seminar to address this issue.

In this seminar attendees will learn:

- How did we get here?
- How the legislature affects health care overall
- The impact of today's legislature
- Looking at universal health care as a whole
- Addressing single payer health plans
- The insurance industry's responses to rising costs
- How we can move forward into the future
- Question and Answer Session

Expert Speaker:

Michael Burdo
State Legislative Chair
National Association of Health Underwriters
